

What is the San Antonio Society?

The San Antonio Society was created in 1979 at the request of friends who wanted to do more than just make a sporadic donation in support of San Antonio Community Hospital.

These men and women were, and are still, committed to making sure their hospital has all the tools, technology, and staffing necessary to fully care for them and the people they care about during times of illness or injury.

“ There are fine things which you mean to do some day, under what you think will be more favorable circumstances. But the only time that is surely yours is the present, hence this is the time to speak the word of appreciation and sympathy, to do the generous deed, to forgive the fault of a thoughtless friend, to sacrifice self a little more for others. Today is the day in which to express your noblest qualities of mind and heart, to do at least one worthy thing which you have long postponed, and to use your God-given abilities for the enrichment of someone less fortunate. Today you can make your life – significant and worthwhile. The present is yours to do with as you will.”
